AGENDA ITEM WORDING:

Approval to advertise a Request for Qualifications (RFQ) for General Consulting Engineer Services for Monroe County Solid Waste and Recycling

ITEM BACKGROUND:

The Department of Environmental Protection (DEP) requires the use of a third party engineer for solid waste issues such as permitting, cost analysis, and reporting. That position has been filled for many years by S. Barker & Associates, however they will not accept any further assignments. Additionally, there are special projects requiring engineering services that arise occasionally. Consequently, the County's Solid Waste and Recycling programs/operations require a continuing contract for general consulting engineer services.
